

# Zacchaeus' Debt

"if I have taken any thing from any man by false accusation, I restore him fourfold.

Help Zacchaeus figure out how much money he owes. Write the name of several items he may have stolen, their value and then finally, the amount he has to pay back.

Wrongful Action	Amount I stole	Amount I will pay back (4x)
Overcharged Mrs. Smith for property tax	\$1,000	\$4,000
Sold a mule for more than it was worth.	\$600	\$2,400
Total Debt I need to repay ----->
